Nature and Art

Here is a chance for young artists to emulate the art that exists in nature as they define for themselves the nature of art. Students in this course will explore the surroundings at Sam Michaels Park in search of animals, birds and more. They then use the visual forms and artworks they discover as inspiration for a variety of creative projects. In the process, the course develops art and natural science awareness, builds basic art and design skills, and encourages young artists to explore a variety of media.
